The old post office in Tilburg is home to Doloris: a climb-through art experience. Both private and business groups have various options. For example: drinks, company parties, staff outings or meetings. We will gladly help you find the options that best suit your wishes.

META MAZE

Doloris Meta Maze, the original Doloris maze created by Berlin-based artist collective Karmanoia. More than 40 different rooms, designed to make you lose your sense of time and space, and become totally immersed in the experience. Without any form of technology, such as phones or watches, make your way through 400 m2 of maze. Don't immediately look for the exit, but enjoy your journey through another dimension for as long as possible.

Utrecht

5 years after the opening of our first establishment, a new location opened in May 2024. Within walking distance of Utrecht Central Station, in an old industrial train hall, a second and unique experience with new artworks has been built: Doloris Anoma Maze. The Anoma Maze features a retro art-deco bar with futuristic elements, where you can unwind after the experience while enjoying drinks and bites.

Anoma Maze

Discover the unknown in Doloris Anoma Maze; an artistic experience that invites all your senses to reveal the unexpected. With more than 70 rooms, this maze is nearly twice the size of the one in Tilburg. Let curiosity be your guide in this crawl-through-climb-through adventure where you can wander through a system of corridors, stairs, and spaces. Step inside, leave the familiar behind, and explore a completely new world without the distraction of phones and watches.

Down the rabbit hole, red or blue pill experience. It was absolutely amazing and I doubt I saw everything there was to see. It is an absolute must for thrillseekers and adventurers."

Matthijs

"Super weird and never experienced anything like it before. An experience hard to describe, but open all your senses then you are ready for an adventure like you have never seen before."
